## **AS A COURTESY TO PATIENTS HAVING SURGICAL PROCEDURES**

This is to let you know that when you have a procedure done in the office, if you have not met your yearly deductible the charges will be applied to your deductible before your insurance company will make a payment.

Excisions, Biopsies, Wart treatments (LN2) all fall under the surgery codes, per the American Medical Association. We do not have your policy information to let you know the provisions of your insurance.

Copays mostly cover office visits. Other procedures usually fall under other categories, such as Deductibles and Co- Ins. All insurance policies are individually written per employers and other group specifications. You will need to read your policy manual or call your insurance company, agent or human resource department to know your personal insurance coverage.

If you would like to be given the price and codes for your treatment before having them performed. We can give you the information for you to contact your insurance company to verify coverage and how your claim will be paid.

This is for your information to ensure when you receive a bill, after we hear from your insurance, you will not be surprised by the amount that is your responsibility.

Thank You  
Dermassociates Ltd.
